

Risk Management Solution Announces –A New Interactive System

Metairie, LA (October 4, 2007) –Risk Management Solutions announced today they are in the final stage of developing a new interactive system for Fund of Funds, Hedge Funds and any investment market. This new technology will give their clients the most efficient and thorough way to provide ordering background investigations. This system also includes the capabilities to updates managers or subjects either on a 6-month, 12-month or 18-month schedule from the anniversary of the initial order date. The system is designed as a free service and will be offered to every client.

With their boutique offering of worldwide public record research, Risk Management Solutions, a division of FSE, LLC, is a leading provider of background investigation solutions. Their team has over 40 years combined experience in the industry, having handled thousands of investigations across the globe.

“This is a system that will revolutionize the market. Our clients will have a complete library of all their background investigation reports. The ordering will be seamless and the updates automatic. Our clients will get access to information while the investigation is occurring. We are excited about this new technology and should have it available in mid to late fourth quarter 2007”, says President Ted Fox.
