

Risk Management Solutions Announces – Environmental Liens Research

Metairie, LA (October 4, 2007) –Due to the changes mandated by the EPA’s new All Appropriate Inquiry rule and the associated ASTM E 1527-05 standard that have increased the importance on the requirements for searches on environmental liens, Risk Management Solutions is offering a special service to all their clients that will assist them in their clients meeting these requirements. Risk Management Solutions is now offering all its clients special Environmental Lien searches to compliment their own research.

Per the E.P.A. (http://www.epa.gov/brownfields/aai/aai_final_factsheet.htm)

WHEN IS THE RULE EFFECTIVE?

The final rule is effective on November 1, 2006-one year after being published in the Federal Register. Until November 1, 2006, both the standards and practices included in the final regulation and the current interim standards established by Congress for all appropriate inquiries (ASTM E1527-00) will satisfy the statutory requirements for the conduct of all appropriate inquiries.

Additional inquiries that must be conducted by or for the prospective landowner or grantee include:

∞ *searches for environmental cleanup liens;*

With their boutique offering of worldwide public record research, Risk Management Solutions, a division of FSE, LLC, is a leading provider of background investigation solutions. Their team has over 40 years combined experience in the industry, having handled thousands of investigations across the globe.

“This new service is available immediately, and with our highly trained staff will provide our clients great turnaround time and exceptional customer care. The combination of this service along with our previously announced “Interactive System” establishes Risk Management Solutions as a superior data provider”, says Executive Vice President James T. Sprader.
